EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Smith on 10/21/2004.

The application has been amended as follows:

In claim 9, line 8, the phrase "sending indications" is deleted and replaced with "receiving indications sent".

In claim 9, line 10, the phrase "sending a segmentation indicator" is deleted and replaced with "receiving a segmentation indicator sent".

In claim 9, line 13, after the phrase "to the receiving entity" insert ", wherein the segmentation indicator is set to indicate that retransmitted data blocks should not be resegmented if a subblock memory in the receiving entity has sufficient memory space available to support an incremental redundancy mode of retransmitting the data blocks that could not be decoded;".

In claim 22, line 15, after the phrase "redundant subblocks of data" insert ", wherein the preferred operating mode for retransmitting the identified subblocks is indicated as being an incremental redundancy mode if a subblock memory in the

Art Unit: 2631

receiving entity has sufficient memory space available to support the incremental redundancy mode;"

Cancel claim 26.

In claim 28, line 15, after the phrase "redundant subblocks of data" insert
", wherein the preferred operating mode for retransmitting the identified subblocks is indicated as being an incremental redundancy mode if a subblock memory in the receiving entity has sufficient memory space available to support the incremental redundancy mode;"

In claim 33, line 16, after the phrase "to the receiving entity" insert ", wherein the receiving entity sets the segmentation indicator to indicate that retransmitted data blocks should not be resegmented if a subblock memory in the receiving entity has sufficient memory space available to support an incremental redundancy mode of retransmitting the data blocks that could not be decoded;"

The following is an examiner's statement of reasons for allowance: Minko (US 5,963,551) discloses a method of transmitting information between a transmitter and receiver and changing the encoding scheme used in the transmission to retransmit data when necessary as described in the previous office actions. Minko does not disclose the use of incremental redundancy mode according to the amount of memory space available as stated in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M. Burd whose telephone number is (571) 272-3008. The examiner can normally be reached on Monday - Thursday 9 am - 5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad Ghayour can be reached on (571) 272-3021. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
